Ripon Together

Ripon Together is holding a Green Fair on Saturday 5th October 2024 (flyer attached) and we are keen to involve young people and families. There will be a range of environmental groups and organisations working on green issues, including sustainable transport and renewable energy. Several of the stands will have activities and information for children, there will be some daytrip bus tickets for families to win and we are holding a children's art competition.

The Climate Change In Colour Competition is open to all local primary school children and the art can be created in school or at home.

Entries should be no larger than A4, but can be created using any materials.

They could be drawn, painted, printed, written or glued together, the more colourful the better, and all should be ideas about our environment, either locally or topics affecting the whole world. They must be at school before 10am on Tuesday 1st October 2024.

Ripon Together will collect all entries from the schools on Tuesday 1st October and as many as possible will be displayed at the fair, where winners will be chosen for each school year.
