World Book Day

World Book Day will bring stories to life and ignite the imagination of our young readers! We invite all children to come to school dressed as a book character. This is a wonderful opportunity for children to share their love of reading and creativity with their classmates.

What to Do:

1. Choose a Character: Encourage your child to pick a character from their favourite book. It could be anyone from Harry Potter to Matilda, or even the Gruffalo!
2. Dress Up: Help your child create a costume that represents their chosen character. Be as creative as you like!
3. Bring the Book: If possible, have your child bring the book that features their character. This will allow them to share a bit about the story with their friends.

Why Participate?

- Encourages Reading: This event promotes a love of reading and helps children connect with their favourite stories in a new way.
- Boosts Creativity: Creating a costume allows children to express their creativity and imagination.
- Builds Community: Sharing stories and characters fosters a sense of community and excitement.

We can't wait to see the amazing costumes and hear about the wonderful books that inspire our children. Let's make this a memorable event filled with fun, laughter, and a love for reading!

Happy Reading!

Learning Together Morning of science

The upcoming Learning Together Morning is a special event designed to give you a glimpse into the fascinating world of science education at our school.

Why Attend?

- Understand the Curriculum: Gain a better understanding of what your child is learning in science.
- Support Your Child's Learning: Discover ways to support and encourage your child's interest in science at home.
- Build Connections: Strengthen the bond between home and school by engaging in your child's education and connecting with teachers and other parents.

We believe that involving parents in the learning process is crucial for children's success.

Your participation in Learning Together Morning will not only enhance your child's educational experience but also foster a love for science that can last a lifetime.

We look forward to seeing you there and sharing the joy of science learning with you and your child!

3:15 Club

The essential staff training, which was originally scheduled for January 4th, but was cancelled by the trainer due to the snow, has now been rescheduled. The new training dates are June 4th and July 9th and will take place after school.

Please note that there will be no after school club on these dates as all staff are required to attend. We appreciate your understanding and cooperation in making alternative arrangements with this advance notice.
